03.A Standard rubber band Office material

In the **office material** distribution industry, such a versatile and practical fastening product as our standard-use elastic rubber band is essential.

Uses

- Organisers
- Stationery
- Box closure
- Folders and binder fasteners

Features

- High elasticity
- Easy to place and reuse
- Sustainable product: made of 100% natural rubber
- Wide range of sizes and colours

	SIZE	LENGTH mm (A)	WIDTH mm (B)
	5	50	1,4 - 5
	6	60	1,5 - 8
	7	70	1,5 - 6
	8	80	1,5 - 10
	9	90	1,5 - 10
	10	100	1,5 - 10
	12	120	1,8 - 15

Packaging Units

Bags 500 g / 1 Kg / 5 Kg

Box 20 Kg

Bag 25 Kg

Available colours

- Natural
- Yellow
- Red
- Blue
- Green

03.B Standard rubber band Packaging

In the **packaging** industry, such a versatile and practical fastening product as our standard-use elastic rubber band is essential.

Uses

- Expanded polyurethane closure
- Box closure
- Fastening elements

Features

- High elasticity
- Easy to place and reuse
- Sustainable product: made of 100% natural rubber
- Wide range of sizes and colours

	SIZE	LENGTH mm (A)	WIDTH mm (B)
	8	80	1,5 - 10
	9	90	1,5 - 10
	10	100	1,5 - 10
	12	120	1,8 - 15
	15	150	1,8 - 15
	16	160	1,8 - 15
	18	180	2 - 10
	20	200	2 - 16
	24	240	1,8 - 6
	25	250	2 - 15

03.C Standard rubber band Agri-food

Our **natural rubber elastic bands** suitable for food contact are the **ideal solution** to tie stems and leaves, preserving produce humidity and maintaining its freshness with an appropriate presentation for the end consumer.

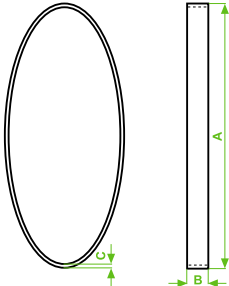

Uses

- Tying of stems (chard, spinach...)
- Fastening of leaves (lettuce, chicory...)
- Grouping of fruits, vegetables, aromatic herbs

Features

- Suitable for food contact, without damaging the product
- High resistance to humidity
- Reusable
- Organic product: made of 100% natural rubber
- Wide range of sizes and colours

	SIZES	LENGTH mm (A)	WIDTH mm (B)
	3	30	1,5 - 3
	4	40	1,5 - 3
	5	50	1,4 - 5
	6	60	1,4 - 5
	7	70	1,5 - 6
	8	80	1,5 - 10

04 Synthetic rubber anchor band Agriculture

Trellising and arbor agricultural techniques, used in many crops, require a solution for tying and fastening that enables the **growth of the plant without strangling it**, and which is also strong, resistant, and fast.

Its elasticity accompanies the growth of the plant, and the simplicity of its handling and its high resistance to weather make it ideal for fruit or ornamental tree tying.

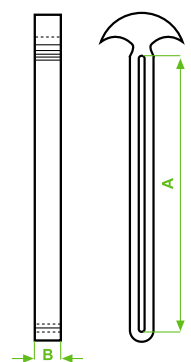

Uses

- Tying and fastening in formation and arbor of vineyards
- Tying and fastening with canes in fruit, ornamental and forest crops...

Features

- Perfect for outdoor use, resistant to temperature changes / anti UV.
- Reusable, recyclable and with great durability
- Easy installation and handling for saving time, compared to other techniques

	SIZE	LENGTH mm (A)	WIDTH mm (B)
	3	30	4
	5	50	4
	8	80	5
	10	100	5
	12	120	5
	15	150	5

05 Natural rubber anchor band Industry

The industrial sector requires low-cost solutions for the fastening and wiring of different parts that are easy to adopt, versatile, and reusable.

Bandex has developed a tailored eco-friendly product for this sector: the industrial anchor band, which is used in the automotive ancillary industry for fastening wiring harnesses.

Uses

- Tying of cables in harnesses in the automotive ancillary industry
- Fastening of electrical cables and harnesses in various facilities, installation works and alterations
- Grouping and organisation of implements and tools in construction and DIY

Features

- Anchor-shaped head for a resistant fastening
- Also, available with flap for an easy unfastening
- High elasticity
- Sustainable (eco)
- Easy to place and reuse
- Organic product: made of 100% natural rubber
- Wide range of sizes and colours

	SIZE	LENGTH mm (A)	WIDTH mm (B)
	3	30	3
	3	30	5
	5	50	5

06 Rubber bands for aquaculture

Bandex has developed practical **solutions** for the oyster and mussel farming: marine rubber bands, specially designed to be long-lasting in harsh sea conditions.

Uses

- Bandex marine rubber bands are used to close bags or to leave them on tables.
- Safety for your oyster stock + cost reduction (reusable, easy to use and remove).

Features

- Synthetic rubber
- Reusable
- Resistant to harsh sea conditions
- Easy and firm fastening

07 Rubber bands for seafood

Lobster marketing requires a practical solution for fastening its strong pincers: our rubber bands suitable for food contact offer a fast, effective and safe solution.

Uses

- Fastening of lobster pincers and other crustaceans to prevent injuries in nurseries and cuts in handling.
- Fastening oysters and other molluscs to keep their juice and freshness.

Features

- Resistance to high temperatures
- Waterproof and water-resistant
- Reusable
- High elasticity
- Easy to apply
- Variety of colours and sizes

	SIZE	LENGTH mm (A)	WIDTH mm (B)
	2	25	13
	3	30	17

*Available in natural rubber and silicone.

08 Rubber bands and Face Shields

Hypoallergenic elastic. Adjustable to the contour of the head, offering a comfortable and safe hold. Clean with disinfectant liquids.

Eye and Facial Protection Kit against fluid drops and splashes

Usage: Covid 19

Facial Protection KIT

- Suitable component for eye and facial protection against drops and fluid splatter.

Features

- It protects against allergic reactions as it does not contain latex
- Manufactured with top quality synthetic rubber
- They offer excellent elongation and are very resistant
- High durability

	SIZE	LENGTH mm (A)	WIDTH mm (B)
	14	140	5
	24	240	10
	28	280	6
Kit Contents: Visor+Pet screen+hypo allergenic harness

09 Rubber bands for the health sector

Our hypoallergenic elastic rubber does not contain latex and, therefore, it is vital in clinical test laboratories for the collection of blood and, in general, for the tying and fastening of medical equipment in hospitals, health, or pharmaceutical centres.

Uses

- Tourniquet for blood extraction in clinical tests
- Medical equipment fastening: Syringes, gauze, applicators
- Organisation and fastening of hospital linens for transport

Features

- It protects against allergic reactions as it does not contain latex
- Manufactured with top quality synthetic rubber
- They offer excellent elongation and are very resistant
- High durability

	SIZE	LENGTH mm (A)	WIDTH mm (B)
	6	60	1,4
	7	70	1,8
	10	100	1,8
	13	130	2,5
	14	140	5
	18	180	5
	24	240	10
	28	280	17
